

# AgriSmart

## Sustainability and digital skills for the agricultural sector

[agri-smart.eu](http://agri-smart.eu)

### The project

The Erasmus+ AgriSmart project is the result of a strategic partnership of 6 European countries, aiming at adapting VET & WBL provision to existing and emerging occupational needs, and strengthening the climate-smart and digital skills of farmers.

### 30 months

01/10/2020-31/03/2023

### Main objectives

- Design a course curriculum on climate-smart and digital practices, addressing the agricultural sector's current and future occupational needs.
- Introduce innovative training delivery methods and Open Educational Resources (OERs), tailored to agricultural sector's characteristics, in order to support VET and WBL provision, thus strengthening the climate-smart and digital skills of workers in the agricultural sector.
- Enhance the cooperation between public and private sectoral stakeholders, in view of integrating project results in existing VET offerings and also feeding relevant EU/National educational policies.

Co-funded by the  
Erasmus+ Programme  
of the European Union
